

## Senior Risk Management Analyst

---

### General:

Reporting to the VP Risk Management, the Sr. Risk Management Analyst will work closely with divisions and locations across the organization, as well as external business partners such as insurance brokers and underwriters, to provide support and analysis on Live Nation's business risk and insurance. The position is focused on quantitative and qualitative evaluation, data management and the procurement and maintenance of the Company's risk management activities.

### Principle Duties and Responsibilities:

- Coordinate policy renewals, including compilation of underwriting data
- Evaluate provisional and financial aspects of insurance quotes and policy structure
- Respond to risk and insurance service requests from business units and partners
- Assist with risk management budget and total cost of risk for the organization
- Prepare risk and loss data analyses for divisions, actuary, and management
- Coordinate claim matters with adjusters, brokers, counsel, divisions, and management
- Work with carriers and third-party administrators to coordinate management of open claims
- Oversee insurance policy audits
- Additional analytical tasks and special projects as assigned

### Knowledge and Skills:

- Minimum of 3-5 years experience preferably in a risk management and/or finance environment with a global, multi-location corporation, insurance broker or insurance company
- Knowledge of commercial insurance coverage policies, provisions and pricing
- Experience with preparing data schedules required for various insurance renewals
- Demonstrated claims experience; emphasis on general liability management desirable
- Excellent analytical skills required
- Ability to effectively prioritize, organize, and perform multiple tasks with varying deadlines
- Excellent oral and written communications skills
- Experienced user of Microsoft Excel, Word, Outlook, and PowerPoint required
- Proficiency in commonly used claims information data base systems a plus
- Experience in entertainment, sports or other event businesses preferred

### Education:

- BA/BS degree, preferably in Risk Management, Finance or Accounting
- MBA, ARM or other insurance designation a plus
